12/18/96

Dear Bill,

I got ypur other letter but not the one you wrote 11/22/96. The probability is that it got mangled or lost, nothing more sinister.

The speech by the general got no attention at all. The attention was to the Post story in advance of the speech and it did not cover the speech. I've not even seen any report on where it was.

I have written about it and will bw writing more when I can.

After the Show I sent Norris copies of some of the documents I referred to on the show. She sent me a nice card for which I've made a copy for you.

Incredible the crazy things people do. Like putting a real rocket on a car!

I knew about Hornung even though I was not following football then but I had not heard that JFK angle.

Best to you all,

Harold
